The Prime University Newsletter is a semester-wise news bulletin containing very briefly the information regarding various academic and extra academic activities that the University conducts during every semester. As usual, the current issue covers news on various events that our University arranged to fulfill its commitment to our students and their guardians in particular and our countrymen in general. Ours is a solemn commitment to bring into full florescence of the talent that our students are gifted with so that each of them flourishes into a full man with a balanced personality.

To this end, diverse activities, both curricular & extra-curricular, comprising class-room lessons, tutorials, weekly tests,

midterm and semester final exams, games and sports, debate and quiz competitions, recitation sessions, musical soirees, dramatic performances, observance of national days and events of historical, literary and cultural importance, outing like picnic and excursion and so on and so forth are arranged as regular events to give fillip to the learners. All these are aimed at imbuing the student with the capability of successfully crossing the hurdles and facing the challenges that beset his way in order to embellish him with laurels that lure him on and on to the newer horizons, thus ushering in continuous improvement and amelioration not only in his own life but in the lives of his fellow beings as well. Not all the events and items that embodied our programs of activities during the Summer Semester

spanning the months of June 2010 to September, 2010 have found expression herein, nor is it possible to do so for the

obvious reason of space constraint compelling us to squeeze even the more prominent ones.

### Research Work in Prime University

Research is one of the main focal points of a university. In other educational institutions like schools or colleges teachers deliver through lecture the knowledge which they have gathered. But a university is the place where teachers create knowledge. And it is done by way of conducting research.

Prime University has conducted a research in collaboration with the Foundation for Research & Development (FRD) on a topic entitled "An in-depth case study on high rate of suicide in Shailakupa and Harinakundu upazilas of Jhenidah district". But recently the authority has been keenly interested in faculty members of the University for involving them in research work. The University authority is also providing financial support to the researchers of the University in this regard. Research proposals have been invited and faculty members are responded positively.

It is expected that more and more research work will be conducted by the Faculty Members of the University which will enrich the education sector in our country and take the University to an envious position.

A Pre-Iftar MONAJAT was offered seeking progress of Prime University and the prosperity of Bangladesh. Even though the Eid was five days away, for the students it was more than the Eid Day. They had a very enjoyable time with a plenty of foods and drinks.

### Mid and Final Examinations held
